UV лакирование

Dysponujemy wysoko zaawansowaną technicznie linią do metalizacji próżniowej i pokrywania lakierami UV. Ofertę naszą kierujemy do przemysłu meblowego, motoryzacyjnego, kosmetycznego, chemicznego, spożywczego, zabawkarskiego oraz do zdobienia różnego rodzaju opakowań, wyrobów galanteryjnych z tworzyw sztucznych, szkła i metalu. Powłoki są wykonywane w wersji metalicznej z połyskiem, matowe, perłowe w szerokiej gamie kolorów oraz transparente wg indywidualnych życzeń Klientów.

We have at our disposal a technically highly advanced production line for vacuum metallization and for UV coating. Our offer is addressed to manufacturers of furniture and a number of other industries : automotive, cosmetic, chemical, food and toy industries. The technology is also well-suited for decorating all kinds of packages and fancy goods made of plastic materials, of glass or metal. The coating is obtainable in several variations optionally: metallic sheen, with full gloss or lustreless, nacreous, and in a wide range of colours, but transparent as well, according to individual wishes of our customers.

Wir verfügen über eine technisch weit fortgeschrittene Linie für die Vakuum-Metallisierung und für die Beschichtung mit UV-Lack. Unser Angebot richten wir an verschiedenste Industriezweige: Möbelindustrie, Autoindustrie, kosmetische, chemische, Lebensmittel- und Spielzeugindustrie. Die von uns angewandte Technologie eignet sich ebenfalls hervorragend zur Verzierung von aller Art Verpackungen, Galanteriewaren aus Kunststoff, aus Glas und Metall. Die Beschichtungen werden in metallischer Version glänzend oder matt, perlmuttartig in breiter Farbpalette oder durchsichtig entsprechend den individuellen Wünschen der Kundschaft ausgeführt.

В нашем распоряжении технически подвинутая линия вакуумного напыления и покрытия УФ-лаками. Наше предложение направлено главным образом к производителям мебельных и автомобильных изделий, к косметической, химической, продовольственной и игрушечной промышленности, а также к изготовителям разного типа упаковок с целью их украшения и в производстве галантерейных изделий из пластмасс, стекла и металла. Покрытие возможно в металлической, матовой, перламутровой версиях, в широкой гамме цветов, а также прозрачные, по индивидуальному желанию клиентов.
